Prints

Monsoon

If you love a good print, this spring/summer season will make your heart sing. Not only was the catwalk awash with prints, there were also prints worn with other prints and accessorised with – yes, you guessed it! – more prints.

Wear them with minimal accessorising (Stella McCartney, Versace, Rochas) and barely there make-up, or mix and match a selection of prints in a similar colour palette (as seen at Prada, Missoni, Jean Paul Gaultier and Cacharel).

If you like animal prints you can also mix and match them and be right on trend (Blumarine, Roberto Cavalli, Givenchy), as long as you keep to one tone and animal. And be sure to match your accessories too, including sunglasses, handbags and shoes.

The louder the print, the more you will get away with, so dust off last year's patterned ensembles ready for a brand new trend.
